Dear Parents and Guardians:

Every year, the State Legislature amends and adopts new laws and statutes on school related issues. This handbook has been updated to reflect the changes in policies regarding safe school legislation, public school learning environment and school attendance as of the above date. Policy updates, changes, additions and deletions may be made throughout the year to comply with changes in law.

The Safe School Handbook is being provided to you for informational purposes and to keep you informed of these changes. Please read all parts of this handbook and have an understanding of its contents. The handbook contains a great deal of information including what will happen in the event a student demonstrates inappropriate behaviors. The District requires each parent or guardian and each student in your household to sign, date and return the form acknowledging that you have received and read the handbook. A sample of the acknowledgment form appears on the next page.

Our schools must be a place where all children feel safe. Your support of our procedures and policies will assist in making our schools safe learning environments for all. All of our schools will periodically participate in practice fire and lockdown drills.

If you have any questions regarding this handbook, please feel free to discuss them with your student's principal. Let's continue to provide our students with safe places to learn, grow and be successful.

Best wishes for a great school year.

Sincerely,

Chris Selle  
Superintendent

## ***Safe School Handbook***

*In the fall of 2012, the Board of Education started a policy review process of all policies that govern the Meeker School District. This process was completed on April 1, 2014. The revisions to the policies are currently being finalized by the Colorado Association of School Boards, please note that this Safe School Handbook publication contains the most current policies of the Board of Education.*

*New problems, issues, and needs give rise to the continuing need to develop new policies or to revise existing ones. This handbook contains current written policies of the Meeker School District Re-1 to date. However, due to changing state law and regulations, the need to adopt new policies as well as revise old policies becomes apparent.*

*As new policies pertaining to the Safe School Handbook are adopted by the Board of Education, they will be updated on our website and building Principals will have copies.*
